Commenting on the Performance, Mr. Narayan Saboo, Chairman & Managing Director said, "This quarter your Company registered a stellar performance indicating strong and steady growth trajectory ahead with 97% increase in consolidated growth in revenues, despite global inflationary headwinds, high energy prices and supply chain bottlenecks. Your Company is on track with its upcoming expansion at Wada, Palghar. It has received finance sanctioned from the bank, and moreover, construction for factory building is proceeding as per schedule. Also, the company has placed orders for the majority of the machines and shall start receiving machines at the site by September/October. Looking at the current progress, your Company intends to start commercial productions at this unit by December 2022 as projected. Your Company is also progressing well on installation of the greenfield project at Ahmedabad. The combined capacity of the two facilities will be 8,00,000 cbm p.a., which will enable us to increase our capacity to 13,75,000 cbm p.a., making us the market leader in this field."

Mr. Saboo further stated, "As the economy recovers from the combined blow of shoot-up inflation induced by the war and ongoing pandemic lockdown in many countries, the overall buoyancy in the markets have come down which has led to lower price levels, however cost of raw materials, logistics and fuel have also corrected. We have observed a sharp rise in demand for our product as the economy returns to normalcy which has helped us running our plants at optimum capacities, enabling us to keep our margins healthy. The superior quality of our product has been the key to our success. As part of our expansion plans, we look to expand our dealer network in the real estate and construction sector. Our business fundamentals remain strong and the domestic opportunity remains favourable, so as we leverage our strengths, we expect to achieve higher growth and create greater shareholder value."
